Tie Breaking Sequence

(Amended: September 2006)

Two Teams Tied:

If two or more teams are tied at the conclusion of a round robin series, then the following procedure will be used to determine the final ranking before the semi-final and final games are played.

23.1.1 The winner of the round robin game between the two tied teams gains the higher position.

23.1.2 The team with the most wins in the round robin gains the higher position.

23.1.3 If the two teams are still tied after 23.1.1 and 23.1.2 have been applied, then the team with the best goal average gains the higher position. The goal average of a team is to be determined in the following manner:

Total number of goals for divided by the total number of goals for and against. *NOTE: All round robin games are included.

Example: For = 10 goals Against = 4 goals Percentage: $10/10+4 = .714$

NOTE: The higher percentage gains the higher position

23.1.4 If the two teams are still tied after 23.1.1, 23.1.2, and 23.1.3 have been applied, the team with the least number of minutes in penalties throughout all of the round robin games, gains the higher position.

23.1.5 If the two teams are still tied after 23.1.1, 23.1.2, 23.1.3, and 23.1.4 have been applied, then the team which scored the first goal in the game between the tied teams gains the higher position.

23.1.6 If the two teams are still tied after 23.1.1, 23.1.2, 23.1.3, 23.1.4, and 23.1.5 have been applied, a single coin toss will determine which team gains the higher position.

Three or More Teams Tied:

Note: The three-team tiebreaker is used to determine the seeding of the 1st, 2nd, 3rd seed. If any step in the tiebreaker only seeds one team, that team assumes that position. The three-team tiebreaker will continue to determine the seeding of the two remaining teams. At no time will teams using this formula go back to the two-team tiebreaker

23.2. If three teams or more are tied, the point record established in the games among the tied teams only will be used as the first tie breaking formula in deciding which team(s) shall advance.

23.2.1 The team with the most wins, in games among the three teams, would gain the highest position.

23.2.2 If teams are still tied after 23.2.1 has been applied, then the team with the best goal average, in games among the three teams, gains the highest position. The goal average of a team is to be determined in the following manner:

Total number of goals for divided by total number of goals for and against.

*NOTE: All round robin games are included

Example: For = 10 goals Against = 4 goals

Percentage $10/10+4 = .714$

NOTE: The highest percentage gains the highest position(s).

The exercise of 23.2.2 establishes the team or teams with the highest position(s) by percentage. These teams will advance. If there are still teams tied, they go to the next step. They do not go back to the "Two Team Tiebreaker".

Example:

A) Team A - .714 = 1 seed – Advances. Team B - .500 = 3 seed – Does not advance
Team C - .650 = 2 seed – Advances

B) Team A - .714 = 1 seed – Advances. Team B - .500 = Still tied with team C – go to next step 23. 2.3. Team C - .500 = Still tied with team B – go to next step 23.2.3.

C) Team A - .650 = Still tied with team B – go to next step 2.3. Team B - .650 = Still tied with team A – go to next step 23. 2.3. Team C - .500 = Does not advance

23.2.3 If teams are still tied after 23.2.1 and 23.2.2. The team with the fewest goals against (all round robin games played) will gain the highest position.

IN THE EVENT OF OVERTIME

Overtime will consist of a 5 minute period stop time, 4 on 4 plus the goaltender. Teams will be required to change on the fly. If a team receives a penalty, teams will continue play 4 on 3. If that same team receives a second penalty, a player will be added to the opposing team and teams will play 5 on 3. If the same team receives a third penalty, it will remain 5 on 3. If neither team has scored at the end of the 5 minute overtime period, each team will select 3 players for shootout. If game is still not decided each team will select 1 player at a time for sudden death shootout until game is decided. A player may not shoot again until all players on the bench have had one (1) shot each.

Any player in the penalty box at the end of the 5 minute overtime period will not be eligible for the shootout.
